Welcome to DMUIC

De Montfort University International College (DMUIC) is an international college dedicated to laying the foundations for your future degree. DMUIC provides the first stage of your studies at De Montfort University, Leicester (DMU).

Our teaching designed to equip you with skills that will help you thrive in a UK university and succeed in your degree studies. We ensure that you are personally supported and guided through academic challenges, acclimatisation to living and studying in the UK, and continuation onto a full degree course at DMU.

DMUIC is situated at the heart of the university campus, and when you begin your studies with us, you'll become a DMU student. You'll also receive the same benefits and privileges equivalent to every other student at the university. This brochure will tell you more about the advantages of learning with us - and it will also answer many of your questions about what it is like to study at the college and the university, as well as living in Leicester.

Although a lot of hard work lies ahead, the teachers and student support team at DMUIC will help you enjoy every minute of your studies. The university offers excellent teaching facilities, international student support, and opportunities to join varied sporting and social events, but the college is small enough for us to get to know each student. Along with DMU, we have a proven track record in helping students achieve their goals and ambitions - and we are sure our new students in 2023/24 will deliver even more!

I look forward to working with you, getting to know you, and sharing in all your successes.
Every best wish!

Philip Moere
College Director

Our international college

Located at the heart of the De Montfort University (DMU) campus, our college offers international students an incredible opportunity to study in the UK.

De Montfort University International College (DMUIC) pathway courses give you the chance to gain subject knowledge, build academic English language skills, and transfer to a full DMU degree course upon successful completion. Courses at DMUIC are designed to give you the very best start to your degree studies with DMU. With experienced teachers and small group sizes you will receive first-class teaching as well as the individual guidance needed to adjust to your new life as a UK university student.

Our pathway courses cover a range of undergraduate and postgraduate subjects, and this includes art and design, business and law to engineering, life sciences and pharmacy.

Our online Pre-sessional English courses (lasting 6 or 12 weeks) are also available to help you meet our minimum English language requirements.

There are different levels of study offered, such as the International Incorporated Bachelors (IIB), Pre-Top up (PTU) and the International Incorporated Masters (IIM). Within the IIB, there are courses known as International Year Zero (IYZ), and International First Year (IFY). DMUIC will deliver the first stages of the IIB, PTU and the IIM before you transition into the next stage of your chosen degree at DMU.

The De Montfort University International College (DMUIC) is operated by Oxford International Education Group in partnership with DMU. Founded in 1991. Our courses help over 50,000 UK and international students achieve academic success every year. We have built strong relationships with education consultants around the world and pride ourselves on delivering the best programmes for their students.

 [oxfordinternational.com](https://www.oxfordinternational.com)

Reasons to choose DMUIC

- Great location at the heart of DMU campus
- Small group sizes with up to 18 students in classrooms for seminars
- Full DMU student status, with access to all university facilities from day one
- A seamless transition directly onto your DMU degree course upon successful completion of your studies at DMUIC

A diverse international student **community**

You will study with students coming from over 60 countries* which will help you to broaden your horizon and learn about different cultures

* Top 10 nationalities enrolled at DMUIC - 2020/21

A global student body

At DMUIC, our students come from all over the world – so you will have the opportunity to learn about different cultures, broaden your horizons and make lifelong friends.

Dedicated student support

We have a dedicated College Manager and eight Student Support Officers at DMUIC, all of whom will help you settle into life as a student at DMU.

DMU student services

As an enrolled student of the university, you will have full access to all of the DMU student services¹, including De Montfort Students' Union, sporting facilities, catering, welfare and accommodation.

Why choose DMU?

Find your new beginning

Exploring your university options means you are taking the first steps towards a new future where you can explore a subject you're passionate about, enhance your employability, gain independence, enjoy new experiences and find the people who will push you to achieve things you never thought you could.

Your Career

Gaining your degree is a stepping stone to landing your dream career, and our award-winning careers support and employability service, DMU Works, is here to open doors for you.

Our careers commitment means you have guaranteed access to work experience opportunities, flexible support tailored to your needs, placement years that count towards your degree and unlimited digital tools.

Our graduates can benefit from our lifelong career support and opportunities. That expert advice has helped previous graduates forge successful careers at places such as the BBC, NASA, Gucci, HSBC, Nike, BMW, Disney and the NHS.

Education 2023

We want to ensure you have the best learning experience possible, which is why we have developed an innovative and inclusive approach to learning known as Education 2030.

We are innovating the way we teach with Education 2030, which is our new student-centred way of teaching and learning, built to work around you. The majority of our courses will be taught in a 'block' teaching format, giving you time to focus on what you're passionate about in a supportive and nurturing community.

Leicester - a big city on your doorstep

We're a campus-based university in the city centre, with the hub of activity in Leicester right on your doorstep – and we're one of the few universities in the UK where you're getting the best of both worlds. Leicester has been named the fourth most vibrant city in the UK, putting it ahead of the likes of Bristol, Edinburgh, Leeds and London (Top Cities Vibrancy Report, 2022), as well as the best city in the East Midlands to live and work (Good Growth for Cities Index, 2022).

A city for your career

Leicester is an excellent place to find work and has been named among the country's start-up hotspots (Capital on Tap), with DMU named one of Britain's top 10 universities for the most student and graduate start-ups. Leicester has also been named the UK's third most progressive city in tackling social and environmental issues (Bankrate UK).

A city with links

Leicester's central location means easy connections to UK cities and airports and is only an hour away from London by train.

A city for students

Arts and culture are renowned across our city, home to the biggest comedy festival in the country, live performances at Curve theatre, plus the Phoenix and Showcase cinemas.

Leicester's Highcross offers a great shopping experience, and the Lanes – a maze of quirky and Instagrammable streets – complements this with a wealth of independent options. And, as a DMU student, you will have access to a range of discounts and offers to help make the most of the city.

The student experience

Being a university student is not only about education, but also about creating and developing experiences and memories on and off campus that help shape your future.

Travel opportunities

Through DMU Global, we offer students a wide range of exciting international experiences. For current students, locations include the USA, South Korea, China, Guatemala and Europe, where they can explore movie fandom, volunteer for sustainable development projects or visit the headquarters of some of the biggest tech companies in Silicon Valley.

Studying at DMU also provides opportunities for transnational education, which is the chance for you to carry out your studies at one of our global campuses.

 dmuglobal.com

Health and wellbeing

The welfare of our students is always our top priority, and DMU offer a range of dedicated services to provide support when needed throughout your time here. Students have access to mental health support, counselling, disability services, and a medical centre on campus. We also run Healthy DMU – a wellbeing service that aims to help students have a healthy, happy and productive time at university and develop habits that can enrich wellbeing for years to come.

 dmu.ac.uk/healthy

Student Gateway

The Student Gateway is DMU's one-stop shop for any non-academic enquiries. Our friendly team will be able to give advice on important subjects such as careers, housing, money, welfare support and international issues.

 dmu.ac.uk/studentgateway

Life on campus

The DMU campus is a safe and peaceful place to study with everything in easy reach, while only minutes away from the exciting buzz of the city centre. At the heart of the campus is the award-winning Vijay Patel Building, home to art and design subjects. The regeneration of the Great Hall of Leicester Castle brought new life and purpose to the former court of law in this Grade I listed building as a teaching space for students in the Faculty of Business and Law.

Faith and Worship

DMU is your home away from home to practice your religious freely, it has its own chapel as well as one of the biggest Muslim prayer rooms of any UK university. Our chaplaincy also provides a wide range of spiritual and practical support to all our students.

 dmu.ac.uk/chaplaincy

De Montfort Students' Union

De Montfort Students' Union (DSU) as a DMUIC student, you automatically become a member of De Montfort Students' Union (DSU) – an independent student-run organisation that serves the DMU community. DSU provides access to over 120 societies, close to 40 sports clubs, numerous volunteering groups, and Demon Media, the De Montfort student media group – all of which give you the chance to be involved with something amazing and build memories that will last a lifetime.

 demontfortsu.com

Sports at DMU

Whether you play at competition level or simply want to try out a new activity, there is a sports club for everyone at DMU

DMU Sport provides a choice of close to 40 sports clubs, from basketball and boxing to judo, football, triathlon and snow sports – and we aim to give every student opportunities to take part in sport, whatever your ability or confidence level.

The DMU Active programme is delivered by students and offers an extensive range of free activities, such as indoor tennis, basketball, lacrosse and badminton. We also work to educate students about how to lead a fit and active lifestyle, balance sports with studies, and maintain a healthy diet.

Superb facilities

- The Watershed is our indoor training environment for sports clubs and societies, and is home to fencing, archery, dodgeball, korfbal, and land-

training facilities for rowing. The centre also offers a dedicated strength and conditioning gym for club members, where coaches work with sportsteams to develop fitness and strength.

- Our Beaumont Park facility boasts a recently improved clubhouse, two all weather 3G artificial pitches, two FA standard grass pitches, and floodlights for night games.
- The Queen Elizabeth II Jubilee Leisure Centre has a 25-metre six-lane swimming pool, sauna, 13-metre climbing wall, sports hall, free-weights area, fitness suite, and a comprehensive fitness programme with a variety of activities from aerobics and abs blast to yoga and Zumba.

Sporting partnerships

Home to FA Cup-winning Premier League football club Leicester City, ten-time rugby union champions Leicester Tigers, one of the UK's most successful women's hockey clubs, basketball side Leicester Riders and Leicestershire County Cricket Club – all partners of DMU – sports fans will be spoiled for choice.

Your career

What you learn in books is just the start. DMU careers support and employability service, DMU Works, is here to open doors for you and help you find your dream career.

DMU Works

DMU has an award-winning career service that can help students to benefit from guaranteed work experience. Flexible and personalised career support tailored to students' needs, including placement years which earn academic credits towards their degree.

In 2021, DMU has been awarded Outstanding Support for Students by Times Higher Education in recognition of its initiative to help students from ethnic minority groups gain job confidence. DMU was also ranked among the best universities in the country for supporting students to improve their career prospects in the Whatuni Student Choice Awards – voted for by students themselves.

Students are helped to understand personal strengths and develop the skills and qualities that today's employers are looking for.

Activities include:

- Professional experience, one-year placements, flexible internships and part-time work
- Work-readiness training, coaching and development
- Unlimited access to LinkedIn Learning courses, and other digital tools like online practice tests, interviews, self-assessments and personalised CV feedback.
- Industry experience through placements, internships and employability mentoring at companies such as ASOS, Disney, HSBC, KPMG, L'Oréal, Microsoft, NHS, Pfizer and Rolls-Royce.

Earn while you learn

Whether you want a part-time job for a couple of hours a week or a full-time position for a short period, the campus based Unitemps recruitment agency has opportunities for paid work both inside the university and in the local area.

Level up **your** career search

Oxford International Education Group has recently launched a careers platform in collaboration with the Student Circus to offer all Pre-Master's students exclusive access to visa-enabled jobs in the UK and other countries. You can browse and apply for part-time, full-time jobs, placements, and internships.

Your career after university

This new initiative is available to all Pre-master's students from the moment your registration and attendance has been confirmed at DMUIC. It allows you to source suitable jobs without spending hours looking for visa-sponsored jobs. You can use this platform throughout your studies and beyond graduation*.

For more information, please scan the QR code on the right to learn more.

Preparing you for the world of work

In addition to your exclusive access to the job listing, you will benefit from the opportunity to participate in workshops; like the Oxford International Careers Bootcamp, which will involve CV building, how to build your professional profile and more.

The benefits

- Filtered Jobs in the UK for visa-sponsorship
- Full access to the platform via [oxieg.studentcircus.com](https://www.oxieg.com/StudentCircus)
- Workshops & webinars
- Global jobs in 30+ Home Countries and Country Guides
- Immigration Guide

How do I sign up?

Student Circus and the student support team at DMUIC will contact you to sign up and create your profile. Then you can begin your search for your new role!

* Only available to students for additional three years post-graduation through Oxford International Education Group.

Accommodation

With a range of comfortable and modern rooms close to campus, DMU provides high-quality accommodation perfectly suited to your needs.

If you want to get the most out of your university experience, the right accommodation is hugely important. With ten DMU halls of residence for international students, you have a great choice of places to live either on campus or within ten minutes' walk. Our flats are mostly en-suite and self-catered with shared kitchens and laundry facilities on site, and there is a choice of mixed or same-gender flats available. If your visa type is "Student visa", you are expected to live within a commutable distance of our Leicester campus. Please refer to page 68 for more information.

Some halls also offer one or more of the following:

- En-suite bathrooms (all with showers, no baths)
- Deluxe/premium/double bedrooms – pay more for a larger room with more storage and/or a double bed (single occupancy only)
- Self-contained studio apartments
- Contents insurance
- Common rooms

Rent prices can range from £99 per week for a standard non en-suite room to £191 per week for a studio*.

Book your room online**

Our online booking system makes reserving your accommodation a quick and easy process. Once you have chosen DMUIC as your firm choice, we'll invite you to book your room and provide you with all of the necessary details*.

Private renting

Private accommodation options are also available as an alternative to university accommodation. Whether you want to live independently in Leicester or stay on campus, there is something to suit everyone. For help securing private living accommodation, please contact the DMUIC Student Services at college@dmu.ac.uk

* All DMU halls of residence are signed up to the Universities UK national student accommodation code of practice. We aim to offer a healthy, safe environment with the professional level of service you would expect. University-sourced, privately managed halls are signed up to the equivalent Accreditation Network UK (ANUK)/ Unipol national code, which commits providers to maintaining professional benchmark standards for large student developments.

**Availability is limited for non October-start students. Students will need to contact DMU Accommodation directly via email accommodation@dmu.ac.uk

International Incorporated Bachelors (IIB)

The International Incorporated Bachelors (IIB) offers you a different start to your undergraduate study at DMU, strengthening your English abilities and introducing the key concepts and academic skills required for your chosen degree subject. Depending on your academic profile, you can study a three or four-year degree course.

What to expect from this course:

Assessment

Throughout your undergraduate pathway course you will be continuously assessed to make sure that you are on track. We will give feedback in person and in writing so that you know how you are doing and how to improve. Through project work, you will learn to work independently and in groups, and we will also assess your progress through tests and exams. Any assignments will be graded and critiqued by your tutor.

High quality teaching

Our classes prepare you for higher education at DMU to give you the best preparation for DMU's lecture halls and classrooms and bridge the gap from high school to higher education.

International Year Zero (IYZ)

This course will give you the perfect start to your degree at DMU. You will study the first stages of the four-year IIB at DMUIC in order to complete your degree at DMU.

Modules for all IYZ pathways English for Academic Purposes (EAP)

It is vital you can communicate in English and understand your lectures. In addition to other core modules, there is a continuous English language module to help you improve your skills. You will learn how to express your opinions and arguments in writing as well as through speech, produce written academic work and enhance your research skills. Our teachers are experts at helping you improve your English for the purpose of studying and communicating at university and beyond.

Study Skills modules

Depending on your choice of course, you will study one or more of these modules to enhance your academic skills.

Study Skills I: Introduction to DMU

Students will be introduced to a range of study skills that will help them become more successful in their studies at DMU. At the end of the module, students will produce a report based on the module content, and engage in their first academic presentation in a university setting.

Study Skills II: IT and Numeracy

You will gain a foundation in IT skills and enhance your math abilities. You will learn how to use Microsoft Office Word, Excel and PowerPoint.

Study Skills III: Communication

In this module you will build upon the Study Skills studied in Study Skills 1, and learn sophisticated study techniques. You will also experience note-taking in a lecture hall environment, and develop your confidence by undertaking exercises in public speaking and debating.

Courses routes
You can choose from one of the following six routes:
Art and Design
Business and Law
Engineering and Computing
Life Sciences
Media
Pharmacy

IYZ Course Stages

The IYZ is the first year of the four-year IIB. Your first year is taught at DMUIC. Once you successfully complete this year, you will continue studying the remaining stages of your degree course directly with DMU.

Entry requirements

Course	English language requirements
IYZ	IELTS 5.5 with no less than 5.5
+6 week Pre-sessional	IELTS 5.0 with no less than 4.5
+12 week Pre-sessional	IELTS 4.5 with no less than 4.0

Continuing your degree at DMU

You must select your degree when you apply. Once you have successfully completed the first stage of the course at DMUIC, you will continue onto the next stage of your chosen degree at DMU.

Please note: Course information was correct at the time of going to print and is subject to review. For the most up-to-date course information for 2023/24, you should visit the course pages of our website dmu.ac.uk/dmu-international-college/index.aspx

Art and Design

This is a practical course that includes creative work as well as theory. You will learn how to manage creative projects and prepare your portfolio. Whether you are going on to study fashion or architecture, you will learn the foundations needed for your chosen discipline.

Course duration: Nine months (30 weeks) **Start dates:** January/September

Compulsory Modules

Art portfolio

This module is designed to assist you in creating a portfolio of work in your chosen continuation route.

2D and 3D media processes

You will explore different media through the use of 2D and 3D processes such as drawing, print, painting and collage.

Contextual studies in art, design and media

This module helps you to develop a critical understanding of contemporary, historical and cultural influences to inspire and inform your own practice.

Researching and recording digital arts

This module will introduce you to the use of computers, photography and digital editing software. You will use these skills to develop a digital portfolio (website) related to your continuation route.

Continuing your degree at DMU

DMU's art, design, architecture and fashion courses nurture creativity and encourage experimentation. The award-winning Vijay Patel Building brings many of our courses together into a striking creative hub that inspires innovation and collaboration across disciplines.

You will benefit from our extensive range of industry-standard equipment including print rooms, dye lab, textile testing, sewing and knitting workshops, metalworking, woodworking, digital printing, CAD, water-jet cutting, prototyping, ceramics, glass making, fine art printmaking, photography studios and digital video editing suites. Take a look at our stunning showcase of the building at dmu.ac.uk/aad

Careers

You can enhance your career prospects with a placement or enterprise year in the UK or overseas. Our students have undertaken placements at many big names including Disney, Ralph Lauren and Tommy Hilfiger. There are opportunities to get practical experience and work with big brands on real-life projects, preparing you for a variety of rewarding careers across the creative industries. Our graduates go on to work for global brands such as Alexander McQueen, French Connection and Gymshark, as well as start their own successful businesses.

Business and Law

This course is designed to give you a solid grounding in the basic principles of management, marketing strategy and economics as well as law, government and society, depending on your chosen route of study. Students on this course will gain insight into a wide number of organisational practices, theories and behaviours.

Course duration: Nine months (30 weeks) **Start dates:** January/April¹September

Compulsory Modules

Business Functions

This module will give you an excellent understanding of the different types of business organisations in the public, private and not-for-profit sectors.

Introduction to Accounting

This module is designed to introduce you to the basic theory and mechanics of accounting to prepare you for the first year of your degree.

Modules: Business-related Understanding Management

The module provides an introduction to management in modern business enterprises, exploring the role and function of managers within this context.

Business Economics in Context

The module analyses key international issues through the lens of the principles and terminology used in economics.

Modules: Politics, and Law-related degrees

Introduction to Legal Principles and Systems (Law)

The module has a focus on the law as it relates to businesses and provides a functional knowledge of basic rights and liabilities in law that may affect a modern business.

Government and Society

This module provides students with an excellent introduction to the political and social structures of society, highlighting the role of media and crime.

¹Starting your degree studies in April means that you move onto stage two at DMUIC - International First Year - before joining DMU for the final two years of your chosen degree course.

"Teachers at DMUIC assisted each student individually, providing comments on tasks and teaching us how to write academic essays, reports, literature reviews, and reflective reports, among other things. Additionally, how to access the blackboard and conduct academic research. Furthermore, DMUIC trained us for video presentations, which aided me at university because I knew everything before I started, as opposed to those who started"university straight away."

Shaikh Amir Ali Pakistan, DMUIC Business and Law.

Continuation degree: Applied Computing BSc (Hons)

Life Sciences

A career in science is challenging, but the rewards are huge – you will be at the forefront of the latest medical discoveries and have the chance to help others. On this course, you will be given a thorough grounding in human biology and chemistry.

Course duration: Nine months (30 weeks) **Start dates:** January/September

Compulsory Modules: Psychology-related degrees

Introduction To Psychology

This module introduces you to the main theoretical approaches and perspectives in the study of Psychology.

Research Methods & Ethics

In this module, you will gain an understanding of the main scientific research methods, their advantages and disadvantages, and areas of application.

Government and Society

This module provides students with an excellent introduction to the political and social structures of the society highlighting the role of media and crime in society.

Compulsory Modules: Life Sciences-related degrees

Basic Microbiology

This module introduces you to aspects of fundamental microbiology required for the study of Biomedical Science and Medical Sciences at undergraduate level.

Introductory Biochemistry

This module aims to provide a solid foundation in the fundamentals of biochemistry needed for specialist subjects in the various Life Science programmes.

Scan the QR code to learn more about our Life Sciences courses.

Continuation degrees
BA (Hons)
Criminology
Criminology with Psychology
BSc (Hons)
Biomedical Science
Forensic Science
Health and Wellbeing in Society
Psychology
Psychology with Criminology
BMedSci (Hons)
Medical Science

Psychology courses are accredited by the British Psychological Society, ensuring your teaching remains relevant to the latest developments in the sector.

Biomedical Science is professionally accredited by the Institute of Biomedical Science (IBMS). You can become eligible to apply to the HCPC (Health and Care Professions Council) Register, by completing an HCPC approved Certificate of Competence portfolio with the IBMS, (this can be completed as part of your optional placement year at DMU).

Medical Science is accredited by the Royal Society of Biology, so you can graduate with the skills and qualifications sought by employers.

Forensic Science is accredited by The Chartered Society of Forensic Sciences.

Compulsory Modules: Life Sciences-related degrees

Chemical Principles

This module is designed to introduce students to basic chemical theories which underpin biological activity. The relevance and application of these chemical principles to the life science disciplines will be outlined and discussed.

Core Modules

Cell Biology

This module aims to introduce you to the basic concepts of anatomy, histology and physiology as an integrated experience of theory and laboratory observation.

English for Academic Purposes (EAP)
(See page 27)
Study Skills I (See page 27)
Study Skills II (See page 27)
Study Skills III (See page 27)

Continuing your degree at DMU

By studying with DMU, you will benefit from high-quality teaching and a recent £12 million investment in faculty facilities, such as a dedicated crime-scene house that mimics crime scenarios. Psychology resources include psychological testing facilities, experiment-building software, psychophysiological apparatus – including eye-trackers – experimental cubicles and interview rooms.

Career

You will have the opportunity to undertake a placement year in schools and community centres, housing projects, NHS hospitals and the HM Prison and Probation Service. Our graduates go on to careers in public health, youth justice, community development, health promotion, medical research, pharmaceutical technology more.

Media

This course introduces you to a wide spectrum of topics. From politics to production, you will study everything you need to get a solid foundation in media and progress to your media-related degree.

Course duration: Nine months (30 weeks) **Start dates:** January/September

Compulsory Modules

Media Studies I

This module aims to introduce you to the key concepts in print and web-based media.

Media Studies II

This module aims to give you a grounding in both the theoretical and practical aspects of film making.

Researching and Recording Digital Arts

This module will introduce you to the use of computers, photography and digital editing software. You will use these skills to develop a digital portfolio (website) related to your continuation route.

Contextual Studies in Art, Design and Media

This module helps you to develop a critical understanding of contemporary, historical and cultural influences to inspire and inform your own practice.

Media Project I

You will learn new skills by creating a project at a basic level using visual, audio or written work to reflect your chosen continuation degree in media.

Media Project II

This module is designed to build on the skills acquired in Media Project I. Students will create a project of lower intermediate level using visual, audio or written work.

(See page 27)

Study Skills I (See page 27)

"I've been involved in numerous live projects including interviewing, writing articles, and publishing. I'm getting a real insight into what it's like in the industry."

Morgana Ribeiro, Journalism BA (Hons)

Continuing your degree at DMU

The Leicester Media School offers a range of technical, creative and communications courses. Many DMU courses benefit from industry collaborations and partnerships with Channel 4, Creative Media Skills and Phoenix Film and Digital Media Centre.

The multi-million pound Creative Technology Studios includes: Audio recording studios; Staging and editing equipment; Television studios; Mac-equipped computer suites; Newsroom suites; Broadcast-standard radio production facilities; Motion-capture equipment and Blue and green screen studios.

Career

We are keen to develop your skills and prepare you to a role in the industry, our previous students have completed placements in companies such as Jaguar Land Rover, Bosch, The Times and Leicester City Football Club.

Graduates have gone on to work in a wide range of careers from producers, editors, and writers to journalists, researchers and television production staff at the BBC, the Guardian, the Telegraph, Sky Sports, Film4 and Odeon Entertainment.

Pharmacy

This course gives you the solid foundation in the principles of chemistry and biochemistry that you need to be able to study towards a pharmacy degree with the prestigious Leicester School of Pharmacy.

Course duration: Nine months (30 weeks) **Start dates:** January/September

Compulsory Modules

Cell Biology

This module aims to introduce you to the basic concepts of anatomy, histology and physiology through an integrated experience of theory and laboratory observation.

Introductory Biochemistry

In this module you will learn about basic processes such as how humans get their energy from food, how exercise keeps us healthy and how diseases attack the body.

Chemistry I

In this module, you will begin to develop your understanding of basic theoretical principles and appropriate laboratory practice.

Chemistry II

In this module, you will build on the subject knowledge and practical skills acquired and developed in Chemistry I.

Continuation degrees
BSc (Hons)
Pharmaceutical and Cosmetic Science
MPharm (Hons)
Pharmacy

Continuing your degree at DMU

The Leicester School of Pharmacy at DMU is one of the UK's most established pharmacy schools, with more than 100 years of teaching experience; We will help you to develop your analytical science experience beyond the classroom.

The facilities DMU offer include pharmaceutical and cosmetics compounding and formulation laboratory, a pharmacy practice suite complete with a mock dispensary and a range of clinical skills teaching rooms complete with the latest simulation based technology – LearningSpace, which allows students to have a 360-degree view of their training environment.

Career

Having developed sought-after knowledge and skills in our laboratories and clinical simulation suites, you can enhance your employability further during mandatory or optional work placements.

Graduates have secured placements with organisations including Pfizer, L'Oréal and the National Crime Agency, and worked with cosmetic companies such as Lush. Our graduates have gone on to work for the NHS, law enforcement agencies and major pharmaceutical companies such as AstraZeneca, Boots, GlaxoSmithKline and LGC Forensics.

Scan the QR code to learn more about our Pharmacy courses.

[DMU IYZ Pharmacy](#)

International First Year (IFY)

This course is the first stage of a three-year integrated degree and is studied over three-terms. It is ideal for international students who do not meet the direct entry requirements for a DMU degree. When you successfully complete the IFY, you will continue to the second year of your DMU degree course.

Common module for all IFY pathways

English for Academic Purposes (EAP)

It is vital you can communicate in English and understand your lectures. In addition to other core modules, there is a continuous English language module to help you improve your skills. You will learn how to express your opinions and arguments in writing as well as through speech, produce written academic work and enhance your research skills. Our teachers are experts at helping you improve your English for the purpose of studying and communicating at university and beyond.

Each route is three terms plus an optional additional 6 or 12 week Pre-Sessional English programme depending on your level of English.

IFY Course Stages

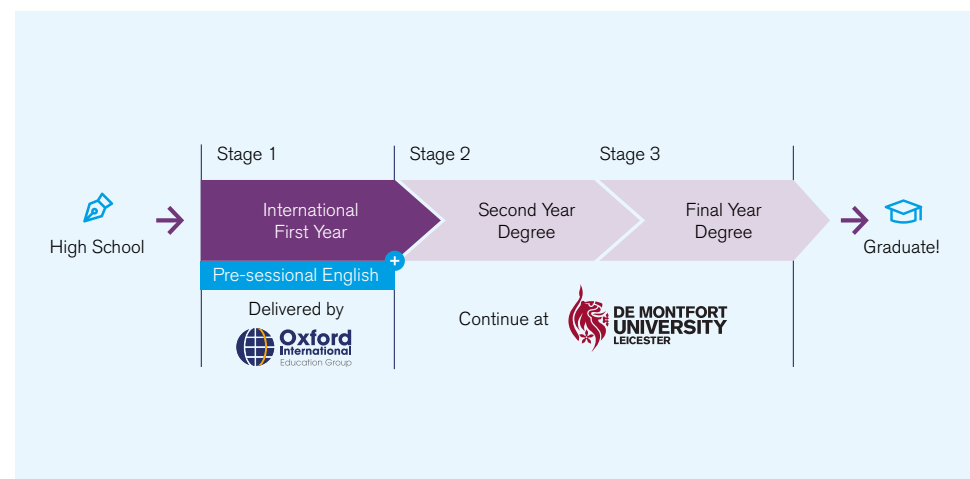

The IFY is the first year of the three-year IIB and is taught at DMUIC. It is the equivalent to your first year of study at undergraduate level. Once you have successfully completed this year, you will move directly to the second year of your degree study with DMU.

Courses routes

You can choose from **one** of the following two routes:

- Business and Management
- Engineering and Computing

We accept a range of English language qualifications such as the Pearson Test of English (PTE). For more information visit: dmu.ac.uk/DMUIC

Entry requirements

Course	English language requirements
IFY	IELTS 5.5 with no less than 5.5
+6 week Pre-Sessional	IELTS 5.0 with no less than 4.5
+12 week Pre-Sessional	IELTS 4.5 with no less than 4.0

Continuing your degree at DMU

The first year of your chosen degree course will be studied at DMUIC. Once you have successfully completed the IFY route you will continue directly into the second year of that degree.

Business and Management

This course is the first year of a business-related degree. You will learn core subjects relating to management, marketing, business strategy, accounting and finance as well as Organisational Behaviour Theory. On successful completion, you will continue onto the second year of your chosen undergraduate degree course.

Course duration: Nine months (30 weeks) **Start dates:** January/September

Compulsory Modules: Business and Management route

Global Business Issues

This double module introduces current global economic and business issues and the challenges these pose to managers.

Principles of Marketing

This module provides a basic grounding in and understanding of the theory and practice of marketing as a business management discipline.

Introduction to Work and Organisations

This module aims to introduce you to the concepts and theories relevant to an understanding of the behaviour of people in organisations.

Compulsory Modules: Accounting and Business Management route

Introduction to Accounting

This is an introduction to the basics of Financial and Management Accounting.

Quantitative Methods

This will introduce you to basic statistics and financial mathematics within a business and organisational context.

Introduction to Law

This will provide an introduction to the study of law and some of the core areas of law, such as contract law.

Continuation degrees

[DMUIC IFY Business and Management](#)

Compulsory Modules (for both study routes) Financial Decision Making

This module is intended to give a generalised introduction to accounting. It concentrates on the use of financial data within business, rather than theory.

Academic and Professional Practice

This module will develop the skills you will need in your professional career such as time management, presentation skills and organisation.

Core Module

English for Academic Purposes (EAP)
(See page 43)

Note:

Students who have progressed from IYZ Business and Law to IFY take the following subject modules in lieu of EAP:

- Introduction to Human Resources
- Enterprise and Innovation

Continuing your degree at DMU

By choosing to study in the Faculty of Business and Law you will have the opportunity to complete a year in industry before your final year of study. Recently, our students have managed to secure roles at Pfizer, Walt Disney, the Government Economic Service, General Electric and PwC.

Engineering and Computing

This course is an opportunity for you to start your engineering or computing degree with access to all of DMU's cutting-edge facilities. On successful completion you will continue on to the second year of your undergraduate degree course with DMU's Faculty of Computing, Engineering and Media.

Course duration: Nine months (30 weeks) **Start dates:** January/September

Compulsory Modules: Engineering-related degrees

Engineering Mathematics

This module provides you with comprehensive knowledge in mathematics with emphasis on engineering applications.

Mechanical Principles

A double module which will provide you with a clear understanding of the key concepts of mechanical engineering. Learn to take accurate measurements, analyse and critically appraise experimental data and present the results.

Electrical and Electronic Principles

A double module which consolidates fundamental principles in electrical and electronics science together with a basic knowledge and understanding of common analogue and digital electronic devices.

Principles of Engineering Design and Manufacture Utilising CAD

This module teaches the key elements of the design process within engineering and introduces the general principles of Computer Aided Design (CAD).

Compulsory Modules: Computing-related degrees

Database Management and Reporting

This module will provide you with a thorough understanding of how data is modelled in a relational database management system (RDBMS).

Continuation degrees
BA (Hons)
Applied Computing Studies
Business Data Analytics Studies
Business Information Systems Studies
Computer Science Studies
Software Engineering Studies
Artificial Intelligence Studies
BEng (Hons)
Electrical and Electronic Engineering
Mechanical Engineering
Mechatronics

Core Module English for Academic Purposes (EAP) (See page 43)

Note:

Students who have progressed from IYZ Engineering/Computing to IFY take the following subject modules in lieu of EAP: Introduction to Analogue and

- Digital Systems
- Introduction to Mechatronics

Continuing your degree at DMU

The Faculty of Computing, Engineering and Media trains engineers, computer scientists and media technologists alike. From computing to engineering, DMU host a wide range of industry standard software packages, DMU has over 20 general computer laboratories and specialist spaces for cyber security and games production. Students can download our software packages and use them remotely.

Pre-Top Up (PTU-IIB)

The Pre-Top Up (PTU) in Business is designed to help international students with a qualifying diploma move directly onto the final year of a DMU degree course. Depending on your academic qualifications, the Pre-Top Up course can be studied over one or two terms.

Course duration: One/Two terms **Start dates:** One term - April, Two terms - January

Modules for Undergraduate Study

Business Communication

The module has a focus on language and skills development but also aims to engage you directly with business-related studies.

International Business Issues

This module aims to provide you with a deeper appreciation of the role of business in society, together with an insight into alternative economic and social structures.

International Marketing

This module will provide you with the opportunity to learn about marketing strategy from a managerial, organisational and country perspective.

Contemporary Management I

This is the introductory course in management and operations. It will introduce the latest management ideas, theories and practice.

Contemporary Management II

The second module in our introduction to management and operations focuses on how management can respond to change within an

organisation - including how to plan for and implement it.

Core Modules (Compulsory)

Introduction to UK University Study

This module helps you to gain the confidence and achieve the skills, necessary for study at an advanced level. It provides opportunities to explore the meaning of learning in a university context. You will also learn about and practise skills required for essay and report writing.

- Improve English language, confidence and more advanced study skills
- Opportunity to gain Bachelors degree from DMU

International Incorporated Masters (IIM)

See page 67 on how to apply

International Incorporated Masters (IIM)	53
Art and Design	55
Business	57
Engineering	59

International Incorporated Masters (IIM)

A postgraduate qualification can enhance your career opportunities and help you stand out to potential employers. It could also help if you are looking to change career and need further training to boost your job prospects within a new field.

Our IIM course is designed for those students who do not qualify for direct entry to a postgraduate degree at De Montfort University. This could be because of the grades achieved in your undergraduate degree; your current qualifications are not equivalent to a UK undergraduate degree or if you want to improve your academic and English language skills. You can study the IIM over one or two terms depending on your academic qualifications and English language level.

Benefits of the IIM

- Extend your academic knowledge in your chosen field of study
- Improve your English language ability to postgraduate level
- Develop critical communication skills
- Improve career opportunities and salary potential
- Provides the opportunity to specialise in a new field of study

Core Modules

In addition to subject modules specific to your discipline there are core modules common to all IIM students:

Academic English I & II

You will learn how to fully express your opinions and arguments in writing as well as through speech; you will also be able to produce high quality written academic work and enhance your research skills.

Introduction to UK Graduate Study

This module aims to help you develop the skills and confidence to effectively engage in postgraduate study.

Courses routes

You can choose from **one** of the following three routes:

Art and Design

Business

Engineering

We accept a range of English language qualifications such as the Pearson Test of English (PTE). For more information visit dmu.ac.uk/DMUIC 

Assessment

Postgraduate study requires lots of independent work and research. Throughout your IIM course you will be continuously assessed to make sure you are on track. In addition to project work and tests, we will give you feedback – in person and in writing – so that you know how you are progressing, and how to improve.

Entry requirements

Course	English language requirements
IIM (One term)	IELTS 6.0 with no less than 5.5
IIM (Two term)	IELTS 5.5 with no less than 5.5
+6 week Pre-Sessional	IELTS 5.0 with no less than 4.5
+12 week Pre-Sessional	IELTS 4.5 with no less than 4.0

Art and Design

This course has been specifically created to enhance your skills, knowledge and practice of art and design. You will explore digital techniques, traditional art mediums and professional practice across the industry. Students also benefit from using state-of-the-art DMU Art and Design facilities in the award-winning Vijay Patel Building.

Course duration: One/Two terms **Start dates:** One term - April/June Two terms - January/April

Modules

Art and Design Tools and Techniques I

This module will help you develop the critical skills required to be a successful artist, designer or project manager. You will learn about different art and design techniques and software such as the Adobe Creative Suite. There will be elements that focus on traditional art techniques that include drawing, sketching using a variety of mediums (ink, pencil, charcoal and pastel), collage, photography, 3D model making and fabric construction.

Art and Design Tools and Techniques II

This module will build upon the techniques and skills learned in Art and Design Tools and Techniques I.

Art and Design Investigation

This module consists of a number of activity-based small art and design research projects. These projects include developing and managing a series of challenges, decisions, tasks and timelines. Additionally, you are required to work both individually and in mixed disciplinary groups to complete the projects set. You will be encouraged to work both within and outside your chosen discipline.

Introduction to UK Graduate Study

(See page 53)

Continuing your degree at DMU

Innovative and widely-respected, DMU's art and design courses are aligned with industry and big brands to help prepare you for a fulfilling future in the fast-paced and exciting creative industries. Encouraged to think sustainably and ethically, you will be well-placed to become the future leader and change-maker the industry needs.

Once you have progressed to your Masters degree, you will have access to industry-standard software and facilities, while working in a dynamic environment with ongoing research and commercial projects. There are also opportunities to gain industry experience by working on live projects or undertaking a work placement.

Business

This course will enhance your skills, knowledge and understanding of professional practice within the business and commerce industry. You'll develop subject knowledge in relevant areas such as management and marketing and improve your study skills to better prepare for your degree.

Course duration: One/Two terms

Start dates: One term - September/April/June Two terms - January/April/June

Modules for Postgraduate Study:

Issues in International HR Management

This module studies the principal issues surrounding HRM in an international context. You will examine how firms in different countries deal with significant HRM issues. The practical focus is on systems of recruitment, remuneration, training, employee participation, knowledge management and management of industrial relations as crucial human resource functions.

Introduction to Accounting

This module introduces you to the financial concerns of a business through an understanding of the global accounting function. It will also help you develop a range of transferable skills of value in graduate study, for example, self-managed learning, team-working, presentation skills, report writing and critical analysis.

Fundamentals of Marketing

This module aims to provide an introduction to marketing and its various theories and concepts, assessing how these are used to achieve an

organisation's objectives. You will consider how companies create a marketing strategy and the issues around decision making in marketing, while also developing a greater understanding of the marketing mix and its relevance in different markets.

Continuing your degree at DMU

You will benefit from access to DMU's established Careers and Employability Team and workshops that support career development.

Once you progress to your Master's Degree you will have the opportunity to **benefit from valuable work experience through a 12-week Executive Company Project**. This is an alternative to a traditional theory-based dissertation, giving you the chance to apply your knowledge and experience to a specific business issue in an organisation.

Engineering

Develop practical insight into Engineering at master's level. This course will give you thorough grounding in fundamental theories as well as real-world knowledge in a subject which offers excellent career prospects. You will also develop an industry-relevant portfolio, gain the ability to lead large engineering projects and help to bring a new academic approach

Course duration: One/Two terms

Start dates: One term - September/April/June Two terms - January/April/June

Modules for Postgraduate Study

Systems Integration

This module will help you fully understand and apply fundamental engineering concepts. It will examine mechatronics and the integration of mechanical, electronic and computing systems. You will also study real-life applications of mechatronics in practice and the crucial role it plays in robotics.

Individual Project

In this module, you will have the opportunity to demonstrate your academic ability by completing a significant project as part of the course. You will need to complete it over several weeks and will have individual tutor support throughout. Through this project, you will also be expected to complete a substantial piece of research or product development work on an engineering topic chosen in consultation with tutors.

Engineering Management

Gain an insight and understanding into the approach and philosophy of Engineering Management, demonstrating the essential features and key areas of modern management required by engineers entering into their first management role.

Course Fees

- Students should budget £200 per term for compulsory text books and study resources
- Students taking Art and Design courses should budget an additional £300 per term for Art and Design resources
- Tuition fees for DMUIC students are payable to DMUIC and can be found at dmu.ac.uk/dmuic
- Fees for the subsequent stage/s are paid directly to DMU and can be viewed at dmu.ac.uk/internationalfees

Please note fees are subject to change, refer to our website for the most up to date information: dmu.ac.uk/DMUIC

How to apply

Applying to DMUIC is easy. As a prospective student you can apply using our online application form. The application must include copies of all relevant academic transcripts and certificates of English language qualifications.

What will happen after you submit their application?

Stage one: Check qualifications

We will carefully review your application and check your academic qualifications and level of English language is suitable for entry to the chosen course.

Stage two: Issue Conditional Offer

Assuming the application is successful; we will send you a formal offer of a place.

Stage three: Issue Unconditional Offer

Once you've met all the conditions outlined in your Conditional Offer we will send you an Unconditional Offer.

Stage four: Submit deposit

To accept a place on the course, you will need to make a deposit to confirm your offer. The amount of your deposit will be confirmed in the Offer Letter.

Stage five: CAS issued

Upon receipt of the deposit we will request your pre-CAS documents. Once the pre-CAS documents has been received, we will issue you with a Certificate of Acceptance for Studies (CAS) number.

Stage six: Apply for visa

You will then need to apply for a visa if applicable.

Stage seven: Final payment

Advance payment of remaining fees will be required prior to arrival.

Stage eight: Accommodation

Once you have chosen DMUIC as your firm choice, you'll receive an invite to book your room and we will provide you with all of the necessary details.

Stage nine: Pre-arrival

Before the start of the course we will send you details of how to register and a welcome pack.

Stage ten: Welcome to the UK!

We will also ask for details of your flight to the UK. We can arrange for a taxi transfer upon your arrival at a UK airport (additional fees apply).

Application checklist

	A copy of a valid passport		References If applicable.
	A copy of your original qualification certificate and transcripts Certified Translation (if applicable).		A personal statement This should outline why you have chosen the University, the selected course and future career plans.
	Portfolio If applicable (If you want to check if a portfolio is required please contact pathways@dmu.ac.uk).		Any current and previous visas, CAS (Certificate of Acceptance for Studies) and copies of exit stamp. Please also include a copy of any previous visa refusal letters.
	Evidence of English language proficiency at the required level We accept a range of English language qualifications. If you are studying Pre-Sessional English prior to the main course you will need an IELTS score of 4.5 overall with minimum 4.0 in each element. If you are not studying Pre-Sessional English prior to the main course you should have achieved an IELTS or equivalent minimum score of 5.5 in all components.		

Student Visa Route

If your visa type is "Student visa", you must live within a commutable distance of our Leicester campus and to engage appropriately with their studies. This distance is 40 miles. The University expects students to be able to readily access academic materials, library services, and professional services support and will expect students to live within a 40-mile radius of the University unless authorised by their programme supervisor and Immigration Compliance Manager.

This term-time address must be provided at registration.

For those students who require a Student visa to enter the UK, the Home Office requires all Student visa sponsors to hold details of a student's current term-time address, including the proximity of their residential term-time address to the sponsor's teaching site. A Student visa sponsor must be able to demonstrate that students are engaging appropriately with their studies and within the regulations set out in the Student Visa Policy Guidance.
