Why choose us?

Going to university and thinking about where to study is a big decision. Here are just a few reasons why our students chose to study at the University of Exeter.

TOP 11

11th in The Times and The Sunday Times Good University Guide 2024.

RUSSELL GROUP

Top 10 in the Russell Group for student satisfaction¹.

¹In six out of seven themes (National Student Survey 2023).

Rated Gold in the Teaching Excellence Framework (TEF) 2023.

Ranked 153rd in the world².

²153rd in the QS World University Rankings 2024.

Safe green campus environment.

TOP 5

Consistently Top 5 in British University and Colleges Sport rankings out of 150+ institutions.

One of the most international universities in the world³.

³Ranked 39th in Times Higher Education Most International Universities in the World 2023.

Dedicated libraries boasting 1.2m e-books, 1m printed volumes and over 1,000 databases and digital archives.

Over 30,000 students from over 150 countries.

Thriving at the University of Exeter

At the University of Exeter, we believe your education is more than just lectures and exams. It's a voyage of discovery, driven by your passions and enabled by our dedicated support. We carefully foster a vibrant community where your voice matters, not just in the classroom, but in shaping the very core of your university experience.

Be heard, be involved

We actively invite your participation in crucial decisions about your academic journey. Through student committees, focus groups, and our Students'

Guild (Exeter) and the SU (Penryn), you have the power to influence curriculum development, resource allocation, and campus initiatives. We listen, we collaborate, and we act on your feedback, ensuring your university experience is tailored to your needs and aspirations.

Your success is our mission

We understand that every student's path is unique. Whether you come from a disadvantaged background, are a mature learner, or have joined us from across the globe, we will support your individual journey. Our virtual and physical Student Information Desk (SID), plus localised information points and hubs, will provide dedicated and focused support to ensure you thrive.

Independent bookshop,
Exeter City Centre.

St Luke's Campus.

Innovative teaching

Our world-leading academics bring teaching to life by exposing you to new perspectives and sharing the latest discoveries as they happen. Whether you are studying on-campus or online you will receive exceptional teaching, plus academic support via our personal tutor system.

Flexible learning

Our Flexible Combined Honours (FCH) programmes let you combine any two or even three subjects from across the

entire university, if they can be timetabled together and you meet the entry requirements. Our Liberal Arts and Natural Sciences courses deliver an interdisciplinary perspective and address contemporary global issues.

Many of our degrees offer 'year abroad' options; these give you either a professional work placement or a year's study at one of our prestigious international partner universities. We also have a range of work placements available in the UK.

Find out more: exeter.ac.uk/study/undergraduate/study 

Tech-powered learning

We work hard to make sure our IT infrastructure seamlessly integrates digital tools into your studies. Access virtual learning environments, online collaboration platforms, and dedicated software packages from practically any device, anywhere. Our Digital Hub will support you through every aspect of your digital life on campus.

Your pocket companion

Our innovative student app puts campus life at your fingertips. Access course materials, track your timetable, find support services, connect with peers, and explore our vibrant university, all from your smartphone. It's your personalised gateway to everything university life has to offer.

Library services

Our extensive libraries, many open 24/7 during term time, offer an unrivalled wealth of resources, from online journals and databases to specialist collections, quiet study spaces, and the unique Bill Douglas Cinema Museum. Expert librarians are available to guide your research and find the information you need for your studies.

Sports Park, Streatham Campus.

Community at our heart

We're more than just a university; we're a warm and welcoming community where connections flourish. Join our vibrant societies and clubs, explore diverse cultural events, or volunteer your time to make a difference. From sports teams to music ensembles, academic societies to social groups, there's a place for everyone to belong and contribute.

Digital Makerspace, Streatham Campus.

Streatham Campus.

Parents/guardians/supporters

The decision to go to university is a big step for students, and finding the most suitable course and place to study can be a daunting task. We recognise that parents, guardians, carers and relatives can all play a vital role in choosing and applying for university.

To support families during this process, whether you have some or no experience of higher education, we've gathered the key information that you will need to help guide a young person through the application journey. We also host regular webinars designed to support this process. You can find out more at: [exeter.ac.uk/study/undergraduate/applying/accessexeter/parents](https://www.exeter.ac.uk/study/undergraduate/applying/accessexeter/parents)

Our research

As a Russell Group university our research makes a difference across the world.

Male wrasse in breeding season,
by Prof Martin Stevens.

We believe in breaking down traditional barriers between academic disciplines so we can consider the bigger problems of the 21st century from human as well as physical perspectives. We are tackling some of the fundamental issues facing humankind to create a greener, healthier and fairer world.

We embed our research in your teaching, ensuring your lecturers and tutors are at the forefront of their subjects, writing the textbooks and making the discoveries that you'll study. Many of our courses also give you the opportunity to get involved in a research project yourself.

Renewable energy research,
Penryn Campus.

Green futures

We have the UK's top five most influential climate scientists – all in the top 21 in the world (Reuters Hot List). In total, we have over 1,500 research and education specialists working on a green future.

exeter.ac.uk/greenfutures

Healthier oceans

Covering 70% of the Earth's surface, our oceans absorb 90% of the world's heat and one third of all human-produced carbon dioxide. Which is why preserving them is a challenge we must rise to.

exeter.ac.uk/research/healthieroceans

Neuroscience

We are making world-leading advances in understanding how our brains develop and function, and what changes occur in some of our most devastating diseases.

exeter.ac.uk/research/neuro

Antimicrobial resistance

Antimicrobial resistance is an issue on a global scale. Our research stretches from fundamental lab work right through to influencing global policies on the issue.

exeter.ac.uk/research/amr

Social inequalities

We are using innovative and interdisciplinary research methodologies across Humanities and Social Sciences to understand, explore and address social inequalities that exist across communities.

exeter.ac.uk/research/socialinequality

Your application

We welcome applications from anyone with the talent, motivation and potential to thrive, regardless of background. Our 'Typical Offer' is the baseline for most accepted applicants. It shows the expected grades needed for each subject as well as any specific requirements. While we usually stick to these ranges, we may occasionally offer exceptional individuals a place even if their grades fall slightly below. We do not make unconditional offers unless you have already achieved the required grades.

Contextual offers and alternative qualifications

We understand that your academic journey may be influenced by various factors, so we evaluate your application in the context of your background. If you meet certain criteria, we may offer you lower entry requirements than our standard. This is called a contextual offer.

You can find out more about contextual offers on our website: exeter.ac.uk/undergraduate/entryrequirements/contextual

We're also keen to accept qualifications other than A levels. Some are listed here, and more are detailed on our website: exeter.ac.uk/study/undergraduate/entryrequirements

If you have any queries about the qualification you have taken, please contact our admissions team at: ug-ad@exeter.ac.uk.

Access course

We accept the Access to Higher Education Diploma. Our typical offers range from 30 Level 3 credits at Distinction grade and 15 Level 3 credits at Merit grade, to 24 Level 3 credits at Distinction grade and 21 Level 3 credits at Merit grade. Where programmes list specific subject requirements, these can often be met with certain credits taken within the Access programme.

Advanced Welsh Baccalaureate – Skills Challenge Certificate

We accept the Advanced Welsh Baccalaureate as equivalent to an A level. We expect you to offer at least two A levels or equivalent in addition to this qualification. We also accept the Welsh Baccalaureate Advanced Diploma – Core as equivalent to an A Level when you achieve a grade C.

BTEC

We accept BTEC qualifications. The BTEC Level 3 Extended Diploma is the most commonly offered and is suitable for entry. Where a specific A level is needed in addition to the BTEC it is listed in our programme-specific entry requirements. Our typical offers range from D*DD to DDM. Depending on your grades, we can consider the BTEC Level 3 Diploma in lieu of two A levels against our general entry

requirements, and the BTEC Level 3 Subsidiary Diploma in lieu of one A level. Further information about our typical offers for this qualification are published via UCAS.

Extended Project Qualifications/Core Maths

We welcome the Extended Project and Core Maths Qualifications as excellent preparation to support progression to university study. In recognition of this, where applicants are taking EPQ or Core Maths, we may be able to make an alternate offer (providing you meet the eligibility criteria¹) giving you more flexibility in how you meet our requirements. Alternative offers will state that for applicants who achieve a grade A in either the EPQ or Core Maths, we will guarantee to confirm their place if they achieve 1 grade below our offer, excluding any subject conditions.

¹ Excludes contextual offers.

Scottish Highers and Advanced Highers

We recognise both Highers and Advanced Highers and, depending on your achieved/predicted grades, we can accept applicants with either of these qualifications or in combination.

T Levels

We recognise the T Level qualifications for entry onto some programmes. Our programme web pages give full details of where T Levels are acceptable and where applicable the grades and subjects required.

Interviews

Most of our degrees do not require interviews. Where interviews are part of the process, we make this clear in the subject pages on our website. Typically, we interview for Applied Psychology, Medical Imaging (Diagnostic Radiography), Medicine, and Nursing degrees.

Personal statements

Your academic results are by far the most important part of your application and are the best predictor for success at university. We rarely use personal statements selectively because we are mindful of different levels of support between schools and colleges. However, they can in theory be part of what makes a difference if we have to choose between candidates with the same predictions or achievements.

Key application dates

- **5 September 2024** – applications open.
- **15 October 2024** – application deadline for medicine, Cambridge, and Oxford.
- **29 January 2025** – equal consideration deadline.

You can find out more about our applications policies and procedures at:
exeter.ac.uk/study/undergraduate/applying

Finance

Studying for a degree is an investment in your future and we are committed to supporting you.

Alongside your tuition fees you will need to pay for living costs and accommodation, as well as other potential course costs.

Financial worries should not put anyone off studying, we offer:

- Bursaries to complement student loans for UK students from low household income families.
- Scholarships for academic or sporting excellence, and other criteria.
- Expert funding advice and guidance.
- Access to bursary support for students who have been in care, are estranged from their families, have caring responsibilities or may need disability support.
- Access to hardship funds for students experiencing financial difficulties.
- Information and opportunities for part-time work.

- Access to affordable and low cost food, goods, social and extra-curricular activities.
- Advice, guidance and practical support to help with the cost of living.

Tuition fees

UK students

At time of print, the fee for UK undergraduate students is **£9,250**, which can be covered in full by a student loan. Please check our website as this may be subject to government policy changes. We offer full tuition fee waivers for students who have been in the care of a UK local authority and meet our eligibility requirements, please check details online.

Exceptions to the standard fee are:

- **BMBS Medicine:** Standard tuition fee is applied per year for years 1 – 4. Year 5 tuition fees will be paid by the NHS¹.

- **Year Abroad/Year in Industry:** If you study a four-year degree programme and spend a full academic year abroad your fee will be reduced to **£1,385** (or approx. 15% of the maximum fee for that year). If you spend a full year on a work or volunteer placement (UK or abroad) your fee will be reduced to **£1,850** (or 20% of the maximum fee for that year)².

You can apply for a student loan to cover all your tuition fees. This means:

- You won't have to pay tuition fees in advance.
- You only start repaying your loan when your income is over a threshold set by the government, and repayments are always a small portion of your salary.
- This loan does not affect your credit score or ability to get a mortgage.

For further details on applying see gov.uk/apply-online-for-student-finance

If you study full-time you can apply for a maintenance loan to help with living costs each year. The amount you get will depend on your household income. The loan is paid directly into your bank account at the start of each term and will need to be repaid.

Find out more about government loans: exeter.ac.uk/undergraduate/fees/government-grants

International students

For students starting in autumn 2024 our fees differ by subject area:

- BMBS Medicine: **£45,700**
- Arts, Humanities, Social Sciences (including Law): **£23,700**
- Accounting, Finance, Business and Management, Economics and Marketing: **£23,700**
- Biosciences, Ecology and Conservation, Geography, Medical Sciences (including Medical Imaging, Nursing and Neuroscience), Psychology and Sport Sciences: **£29,700**

¹ Under review – assuming current arrangement continues.

² These figures may be subject to change should government policy alter.

- Flexible Combined Honours: **£24,500**
- Mathematics and Computer Science (including Mathematics with Accounting/Economics/ Finance/Management): **£27,000**
- Engineering, Physics (including Combined Honours Maths and Physics), Geology, Mining and Natural Sciences: **£29,700**

International fees will increase in each year of study in line with CPI (Consumer Price Index) per our current policy.

Keep up to date with changes to tuition fees: exeter.ac.uk/undergraduate/fees

Find out about international study visas: exeter.ac.uk/internationalstudents/applyingforavisa

Bursaries

Bursaries are non-competitive payments intended to help students who are under-represented in higher education or who are from low income households.

In 2023 we offered bursaries for:

- UK students with a household income below £30,000.

- Care leavers under the age of 25.
- Students with caring responsibilities.
- Students without family support.

Find out more about the bursaries available: exeter.ac.uk/study/funding/undergraduate/support

Scholarships

Scholarships are payments made to support your education, awarded on the basis of merit, personal achievement and academic ability.

Each year we offer a wide range of scholarships, including:

- Sport – for outstanding students in key sports.
- Music – choral and organ scholarships.
- International students of outstanding academic quality.
- UK mature students meeting high academic standards.
- Students studying abroad.
- Students from Devon and Cornwall who meet specific criteria.

- Students progressing from our fair access programmes achieving exceptional academic standards or overcoming specific challenges.

Specific details of bursaries and scholarships change each year, usually in February (for students starting that October). Stay up to date and find out more, including criteria and awards for individual schemes: exeter.ac.uk/study/funding/undergraduate/scholarships

Financial advice

Our Student Information Desk (SID) can answer questions and give information about fees and funding. Our Students' Guild Advice Team can offer independent financial advice. Debt management advice and support is also available to our current students through our partnership with StepChange.

Find out more:

exeter.ac.uk/students/finance
exeterguild.org/finance
thesu.org.uk/advice/finance

Working while studying

Most students help support themselves by working part-time. We recommend no more than 10–15 hours per week. We can help you find part-time jobs, including opportunities on campus: exeter.ac.uk/careers/casualjobs

Living costs

Living costs are all expenses other than tuition fees, such as accommodation (unless you live rent-free at home), food, travel, bills, entertainment, socialising, books and other study costs, or course extras (e.g. field trips, equipment). The total will depend on the course you study as well as your individual needs and priorities.

If you are an international student it is important that you research living costs in the UK when deciding where to study, as differences in the cost of living and exchange rates may make living costs significantly more expensive than in your home country. You will need to demonstrate you are able to cover your living costs to obtain a visa.

Find more detailed and up-to-date examples of specific living costs: exeter.ac.uk/undergraduate/money/livingcosts

Your career starts here

From careers advice to work experience and skills development, we can offer the support and opportunities you need to impress employers when you graduate.

Career Zone

Rated a top 5 careers service¹, the Career Zone offers a full range of support, including advice on preparing your CV, running mock interviews, employer presentations, careers fairs and job-hunting techniques, all designed to match your skills and ambitions with great career options. Our Careers Team will help you build the range of skills employers now demand, beyond subject knowledge alone.

Employment opportunities around the world

We have a Global Employer Engagement Officer within our Global Opportunities Team, who is dedicated to building relationships with graduate employers around the world to support your career aspirations. We also offer China and India Career Ready Programmes, specially tailored to help students from those countries apply for jobs in the UK and back home.

90%

90% of our graduates in or due to start employment or further study fifteen months after graduation².

Careers fair,
Streatham Campus.

I have learnt so much from my Industrial Placement. It not only has given me an opportunity to learn what to expect in the work environment, but also to think deeper and link theories with real-life scenarios when in lectures in my final year at the University. My placement company also provided a range of training opportunities and volunteering activities that have helped me build my presentation skills, technical skills and interpersonal skills.

Yuan.

BSc Economics and Finance with Industrial Experience, Streatham Campus.

¹ The Student Crowd Best Universities for Careers Service 2023.

The South West

Our unique campuses in Devon and Cornwall are at the centre of a region rich in history, culture, science and natural beauty.

Beyond our vibrant cities and towns we are surrounded by national parks, beaches, nature reserves and heritage sites, with an exciting year-round cultural scene.

Beautiful campuses.

National Parks on your doorstep.

¹ By train from Exeter

Our campuses

Penryn Cornwall

A modern coastal campus, near Falmouth, where environment and sustainability are embedded into our core. This unique and beautiful location has a vibrant cultural scene in part from sharing facilities with Falmouth University.

Facilities include:

- 24/7 Library in term time
- Environment and Sustainability Institute
- Science and Engineering Research Support Facility
- Renewable Energy Engineering Facility
- Masters Suite
- Sports Centre
- Green Flag Awarded grounds
- Multifaith Chaplaincy
- Multi Use Games Area (MUGA)

Our campuses

Streatham Exeter

A beautiful green campus with a mix of modern and historic study environments, on-site accommodation, shopping, cafes, bars, entertainment, support and world-class sports facilities.

Facilities include:

- 24/7 Library
- Living Systems Institute
- The Bill Douglas Cinema Museum
- Digital Humanities Lab
- Microscopy Suite
- Multifaith Centre
- Lakes, woodland, parkland, gardens
- Gym, swimming, outdoor sports

Our campuses St Luke's Exeter

In the heart of the city and home to the Medical School, Sport & Health Sciences and Education, this friendly campus packs in all the modern facilities within its beautiful traditional setting.

Facilities include:

- 24/7 Library
- Clinical Skills Resource Centre
- Medical Sciences Lab
- Nutrition Lab
- Sports Science Lab
- Medical Imaging Lab
- Education Centre
- Gym and swimming pool

Accommodation

Studying in a new place is a big decision and it's important to have somewhere safe and secure to call home, whether that's in a university residence or private accommodation.

If you choose to live in university accommodation, meet our criteria and apply by our deadline, we guarantee to offer you a room. You'll have the opportunity to meet a diverse range of people from different backgrounds and cultures studying a variety of programmes – ideal for helping you to easily make new friends.

Everyone has different requirements, and we offer a wide range of accommodation to suit all tastes and budgets with the following benefits:

- All bills included in rent
- 24/7 campus security
- Convenient locations on or near our campuses
- Catered and self-catered options
- Wifi in all rooms
- Laundry facilities
- Social spaces
- Experienced welfare support team

You can find out more about university accommodation suitable for students studying at our Exeter campuses at: exeter.ac.uk/study/accommodation. If you plan to study in Cornwall, details about the accommodation the University provides can be found here: exeter.ac.uk/study/accommodation/cornwallcampuses

Exeter and Cornwall also have a good selection of private sector accommodation close to our campuses, so you're never too far away from where you need to be. Private accommodation has contract lengths and rent levels to suit different budgets.

To find out more about living in Exeter private sector residences, visit: exeter.ac.uk/study/accommodation/private. Or you can find out more about private sector housing in Cornwall at: exeter.ac.uk/study/accommodation/cornwallcampuses/privatehousing

Glasney Village,
Penryn Campus.

Support

Your wellbeing whilst at university is crucial to us and we have advisors on hand to help support you in a range of areas.

Learning support

From essay writing and time management skills to revision strategies and exam techniques, we'll do all we can to help support your learning.

Tailored support

We provide specialised support for care leavers, estranged students, student carers, mature students, and refugees, catering to your unique needs.

Multifaith Chaplaincy

Our Multifaith Chaplaincy is here for students of all faiths but also of no faith. The team is made up of Chaplains from a variety of religions who are available to offer listening and informal support.

Wellbeing

Our Wellbeing Services are here to help you with any health and wellbeing issues you may experience while studying with us.

Multifaith
Chaplaincy,
Penryn Campus.

29

Community

International student support

From helping you with your visa application to our airport collection service, our International Student Support team will help make your journey to the University of Exeter as easy as possible.

Disability support

Our AccessAbility team can provide support and advice for students with both physical and mental disabilities.

I have dyslexia and before coming to university I was quite worried about how this would affect my ability to study at degree level. However, my experience working alongside the University's AccessAbility team has made the transition to studying at university as easy as possible. I haven't found that my dyslexia has impacted my ability to study or keep up with anyone else at all and for that I'm really grateful for the provisions in place here at the University of Exeter.

Megan.

MSci Applied Psychology (Clinical), Streatham Campus.

Guild & SU

University of Exeter Students' Guild

The Students' Guild is your students' union in Exeter and is central to student life. When you register as a student, you automatically become a member, opening the door to a whole host of opportunities.

With over 300 societies and groups on offer, you can explore your passions and meet your people. The Guild is also there to support you throughout your time at university and can provide advice on everything from your studies to finances.

The societies are amazing! I made all my friends and fully explored my hobbies in them. I'll miss the wonderful people from the Guild when I graduate as they helped me through it all!

Ollie.

BSc Business and Management,
Streatham Campus.

Devonshire House,
Streatham Campus.

The Stannary, Penryn Campus.

31

Community

The Falmouth and Exeter Students' Union

The SU will play a major role in your student experience, from Welcome Week through to Graduation. It organises events; provides more than 120 sports clubs, societies and volunteer projects; gives students the opportunity to represent their fellow students; and is on hand to provide support and advice.

The SU team are fantastic. A combination of both graduated Exeter and Falmouth students, they are a brilliant source of support for the creation/joining of societies, mental health and any other university queries you have.

Molly.

BSc Zoology, Penryn Campus.

Sport

Consistently finishing in the top 5 of the British Universities and Colleges Sports competition, we consider sport to be an essential part of life, and not just the competitive kind. Whether you're an elite athlete, enthusiastic amateur, or complete beginner, we have a huge variety of sports clubs and facilities to suit your interests. Develop your skills, learn something new or just have some fun!

- **Get involved:** With over 100 sports clubs across our campuses, there is something for everyone. Give ultimate frisbee a go, take to the waves with surfing or even learn how to horse ride.
- **Social sport:** Join over 4,000 University of Exeter students playing weekly in our intramural sports leagues. A great way to enjoy sport while making new friends.
- **Cutting-edge facilities:** Over £30 million has been invested into new and improved sports facilities including gyms, all-weather pitches, fitness classes and swimming pools.
- **Competitive opportunities:** Play in local leagues and national competitions.
- **Sports scholarships:** Scholarships are available, providing support and financial benefits to help meet the needs of individual athletes.

Sports Park,
Streatham Campus.

Sports Hall,
Streatham Campus.

Penryn Campus.

Exeter is a very big university for sport. I really enjoy playing golf and not many universities are big on golf, but Exeter definitely is. I play for the BUCS team so we have a match every week and training once or twice a week. Being able to play golf competitively and get coaching to continue improving alongside my studies has been great. It has been a big part of my uni life and it is a good way to meet people.

Ceri.

BA International Business and Modern Languages, Streatham Campus.

Sports Park, Streatham Campus.

Student life

There's more to university than just studying. The friends you will make and the experiences you will have outside of the lecture theatre all help to shape your university experience. Whether you're based on our Streatham, St Luke's or Penryn Campus, you'll have plenty of opportunities to explore music, sport, art, theatre and nightlife.

Welcome Week

Before your first term begins, join us for a fun-filled Welcome Week. This is your chance to get to know the campus and local area, learn more about your course, explore our diverse societies and sports, and discover the University's support services. Plus, it's the perfect opportunity to make new friends.

Meet our students

Become a part of our community before you even arrive on campus. Follow @ExeterUniLife on Instagram, where our students share their university experience and top tips to help you make the most of your degree.

Exeter is a perfectly sized city. I come from a rural town with very limited shops, nightlife and activities, so Exeter feels massive in comparison with so many shops and things going on at all times.

Megan.

MSci Applied Psychology (Clinical),
Streatham Campus.

Ram Bar,
Streatham Campus.

Living in Cornwall is an absolute dream. You have outstanding beauty on your doorstep and some of the best beaches in the UK. There is also an amazing heritage and culture in Cornwall.

Matt.

BSc Business and Environment,
Penryn Campus.

Students' Guide

Want to get an insight into what it is like to live, socialise and study at the University of Exeter? Check out our Students' Guide. Written entirely by current students and alumni, it is filled with their advice, photos and memories from their time at Exeter.

exeter.ac.uk/study/undergraduate/prospectus

There's lots to do in the local area like sunset swims on Gylly Beach, watching dolphins off Pendennis Point and Falmouth's nightlife. You're never short of things to do here.

Lily.

BSc Zoology, Penryn Campus.

Penryn Campus.

Exeter's club scene is diverse and offers something for everyone. Whether you're looking for a wild night out or a laid-back atmosphere, you'll find it all here!

Charlie.

BSc Business Economics,
Streatham Campus.

Societies

Societies are at the heart of student life. With over 450 societies and student groups to get involved with across our campuses, you're sure to find something you love and connect with like-minded people. You could:

- Write for the student newspaper or host your own radio show.
- Showcase your talents in an a cappella group or join a band.
- Try something new such as ballroom dancing, baking or stand-up comedy.
- Get involved in charity fundraisers and support the causes close to your heart.
- Experience cultures from around the world with societies like African and Caribbean, Asian, or Latin American Society.
- Connect with peers outside of the lecture theatre through academic and course-related societies.
- Stay active with activities like yoga, salsa dancing and open water swimming.

Penryn Campus.

'Forum Hill', Streatham Campus.

For me my favourite thing about Exeter is definitely the societies. I'm part of a few, such as Clarinet Choir, Theology Society and Body Society. I've made lots of friends through societies and they're a really good opportunity for you to get involved in something outside of your course.

Francesca.

BA Philosophy and Theology, Streatham Campus.

Our alumni community

When you graduate from the University of Exeter, you don't just leave with a degree – you become part of our lifelong global community.

Our students have gone on to do amazing things and we're in touch with over 175,000 alumni from 183 countries.

Winter graduation, Streatham Campus.

Supporting you beyond graduation

- **Career support:** Our commitment to your success doesn't end at graduation. Enjoy free career support services tailored to your needs.
- **Global alumni events:** Stay connected with fellow alumni through regular virtual and in-person events held worldwide.
- **Exclusive discounts:** Benefit from a wide range of exclusive discounts available to alumni.
- **Lifelong learning:** Continue your academic journey with free access to thousands of online journals.
- **Vibrant networks:** Discover social and professional networks that will support you throughout your life and career.

Alumni reception, Beijing, China.

My time at Exeter was invaluable for my career. The academic side was amazing with excellent seminars and lectures in Law, but it was the world outside the academic circle that really enriched my life and career. Getting involved with different societies like the Debating Society and the Law Society allowed me to expand my social bubble and meet other people from different universities and lecturers. I also gained essential soft skills like debating, public speaking, and argument building, which are necessary skills for a lawyer.

Reindert.

Foundation Coordinator at CEDR.
LLB Law, Streatham Campus, 2019.

Find out more: exeter.ac.uk/alumni

Choose your course

Most of our undergraduate degree programmes are listed in the following pages.

The letters next to each programme indicate the location, so you'll know if it's taught at either our Streatham or St Luke's campuses in Exeter, or our Penryn Campus in Cornwall. We also list the UCAS code, typical offer requirements at A level, IB, and BTEC, and whether we make contextual offers (see p6-9).

You can find full course details, including module information, subject-specific entry requirements, and information about facilities, field trips, teaching, study and work abroad, and our innovative Flexible Combined Honours, on our website: exeter.ac.uk/study/undergraduate

We are constantly developing our portfolio of programmes, and while we make every effort to ensure this list is correct when the prospectus is printed, it can very quickly go out of date. Please always check our website for the latest information before you apply.

Forum Library,

Degree apprenticeships

Degree apprenticeships are a great way to gain a full undergraduate degree while earning a salary. You'll spend 80% of your time working with a partner company and the rest studying.

This is a great option for people who want to earn a degree but don't want to take on the financial burden of traditional university fees. It's also a great way to gain valuable industry experience while you study.

You can find out more about the kinds of companies we partner with and how to apply here: exeter.ac.uk/study/degreeapprenticeships/apprentices

Streatham Campus.

- Chartered Manager (BSc)
- Civil Engineering (BEng)
- Diagnostic Radiographer (BSc)
- Digital and Technology Solutions (BSc)
- Financial Services Professional (BSc)
- Mine Management (BEng)
- Project Management (BSc)

Meet our students

The best way to find out if our university is the right one for you is to come and meet us, in person or online.

Open Day dates

Wednesday 29 May 2024	Penryn Campus, Cornwall
Friday 31 May 2024	Exeter campuses, Devon
Saturday 1 June 2024	Exeter campuses, Devon
Saturday 5 October 2024	Exeter campuses, Devon
Saturday 12 October 2024	Penryn Campus, Cornwall

Want to hear more from our students? Read our student blogs at: blogs.exeter.ac.uk/students and check out our student-run Instagram [@exeterunilife](https://www.instagram.com/exeterunilife)

Speak to our students via Unibuddy.
